SUCCESS STORY

Alaska Geographic

The custom artwork process is one of my favorite parts of working with Lantern Press. I appreciate how easy it is to have an idea go from concept to finished art. The team is great at ensuring the flora and fauna are correct and ensuring interpretive integrity to provide an item that not only looks great but can educate. A memory that sticks out from my tour was visiting the art team and seeing how much work they put into researching the subject and making sure even the most minor details were caught.
- Mark Bailey

SUCCESS STORY

Canyonlands Natural History Association

The process of developing custom art is seamless. Their team is spot on in meeting my needs. They listen to what I am proposing, do research, respond to feedback, and most times nail the image with little or no changes to the first draft.

I love the product that Lantern Press creates for us. It enhances our stores and elevates our customer experience. We began with a modest selection and have grown the line to 92 SKUs, greatly increasing sales every year since.
- Sam Wainer

Core Products & Sustainability

Image 142354 and 142355

Our Core Products

Not sure where to start? Our core products are the right combination of high margin bestsellers with quick turnaround times. Five of the seven are fully made in the USA.

ART PRINTS • POSTCARDS • KEYCHAINS • COASTERS • MAGNETS • STICKERS • PUZZLES

Sustainability

We create art to celebrate the beauty of our earth; naturally we choose manufacturing processes designed to preserve it. Here are some of our most impactful efforts:

- All paper is FSC-certified, meaning it comes from responsibly-managed forests that meet environmental, social, and economic standards.
- We print on demand — we only make something when you order it, eliminating wasteful overruns.
- Our vinyl stickers use 50% less PVC than our competitors and are landfill-free — all cutting scraps are sent for recycling.
- Many products are made with recycled materials, and materials that can be recycled by consumers. We've reduced plastic in our packaging, and use reusable packaging solutions like our print tubes and ornament boxes.
- We give back through our partnership with 1% for the Planet®, an organization that drives philanthropic support for the environment.

FAQs

Is your artwork made by AI?

No. Lantern Press illustrations are not created by AI, and we don't accept AI-generated client artwork. Our art is made by humans.

How do I customize art?

Pages 8-13 describe our art customization options. You can request customization directly in our online portal, and our team and sales reps can also assist you. Note that Art Changes are limited to changes of two elements, and are subject to approval.

What can I do with artwork? Can I name drop it? Can I put it on any product I want?

We offer both **customizable** and **ready-made** options. **Customizable** products can be name dropped, and may be available for an art change. Most of our catalog is customizable.

The Protect Our National Parks collection is an example of **ready-made**; products that have specific art that can't be name dropped or altered. These products are easy to order; just choose the product you like and go.

Do you have my location?

Yes, we do have art for your location—or we can make it for you! Our extensive catalog offers images from across North America, including specific locations as well as broad appeal images which are perfect for name dropping. If your location isn't represented, request a name drop or custom art from us in one of our custom art styles.

Can I print my own photography on Lantern Press products?

We can print photography you provide if you own the copyright to the photo and sign a release. Please provide a high-resolution file (300 dpi at least 12" wide) in a .PSD or .PDF format.

What are your top-selling products?

Magnets, Postcards, Stickers, Puzzles, Art Prints, and Coasters are among our customers' favorites.

How do I merchandise your product?

You have a variety of display options, shown on pages 28-30, and each is free with a minimum product order. We are experts in knowing how many images and which products are best for a given space, so reach out if you'd like some merchandising guidance. Don't have room for a display? We have creative ideas for pegwalls, tables, and other faces too!

How are your products made?

Most of our products are printed on demand and created especially for your order. We are proud to manufacture and print many products on-site in our Seattle facility, alongside select domestic partners. Some of our ready-made products are designed in Seattle and manufactured overseas.
